"The terms "Negro breeders" and "Bue fricans" have been applied to the Pro-Slaver arty; but neither cognomen is as descriptive

Mr. Murphy, Connul at Shanghad, arrives are yesterday, and sendered his resignation his morning, its has filled the post for four was. The many is \$4,000. His office as mean are \$5,000. He was it is impossible.

By adding to this last balance in e States, the difference in value of t I pound measure products, we sha by correct idea of the extent to white

the only resource which is left scape from becoming a waste.

The Five Hundred Pollar Test, (From the Rosten Svening Transcript of Prid

The National Dress Reform Convention was held in this city yesterday and the day before. It was much better attended than I expected it would be. It was largely attended from the beginning. The members from a distance-some of them a great distance-were quite numerous. I doubt not that many more would have come into it from the towns around Syracuse had it not been for the very bad, almost impassable state of the roads and the Bloomer costume. On some it was tastfully arranged, and really looked well. On others it sat ungracefully, and was disagreeable. Nevertheless, they all gassed to and fre hrough the streets, without, if believe, molestation of a jeer or a saucy word. Indeed, a great many persoiss made the remark, and our newspaper editors saknowledged, in black and white, the the

Neither the Noutreal Attender nor the American Almanas for this year give any hint as to this cocultation, nor the hour at which the planet sets. The English almanes calculated for the latitude and longitude of Greenwich do, and much of our readers as are familiar with the subject can make the corrections for themselves. We take the fact solely from a statement which appears to be official, and believe that the elements of this occultation have been carefully made at Cambridge, where, with their fine instruments and proper tables, such calculations are easily made. The place of Castor, in the same constellation with the occulting star is laid down in the United States Nautical Almanas for the present year. Since writing this, we learn that Saturn will set at 8 o'clock and 8m, the humersion behind the outer ring will be at 6 h.13 m.; behind Saturn 6h. 49 m. Immersion from behind shaturn 7 h. 31 m.; emersion from behind the outer ring 8 h.6 m. Saturn will be seen in a line with Castor and Procyon. The German Turners' Association.

(From 1 & Sacha Journal, June 224)

The German Turners' Society of this city held their annual rustic festival in Charles River Grove, on the banks of the Charles River, in Newton Upper Falls, yesterday afternoon. As early as the beginning of the present century, a German Professor named Jahn, connected with the University at Leptic, conceived the idea of founding a school in which the elementary principles of a physiological education should be taught the youth who were connected with the University.

Their sedentary occupation had so enervated connected with the University.

Their sedentary occupation bad so enough their systems as to excite the approblems the Professor, who established a gymna added to which was a department where teebled youths received medical treatment. menetronics, resouring all pherostics, while com order otherwise, headench, pair is like in while a of the heart, disturbed giong, which always notes from scruplings of makers. They can be successfully used as a recently. Those piles should never be the

per cent, and on 1834 or over 35 per cent.
showing without doubt a great increase of the
disease in the City of New York. Fifteen hun
dred of the patients in this hospital were af
listed with this disease of vice.
It further appears that 38 out of every 10
of these patients are not prisoners, but sich
persons who have been obliged to report them
selves as sick vagrants.

The Report furnishes as with some important
facts in regard to the nativity of these unfor
hunder, and we now not the foreign counties. or at the moment.

Of the number admitted last year, it appears that 70 1-10 per cent. were foreigners, and 29 9-10 per cent. mitves; of these last, New York has 78 3-10 per cent, and New Jersey follows next. Of the foreigners, Ireland has 25 6-10 per cent., and Germany only 7 5-10 per cent, when we regard the years of the patients, we find that over 80 per cent. are under 30 years, of age, and that about 400 are almost children, being 16 years and under. Only 35 per cent. are Protestants, and the remainder are Roman Catholics.—N. Y. Morror. estants, and the remainder are Ro IGNORÂNCE IN FRANCE—An analysis of a late report of the population of France shows a remarkable degree of ignorance on the part of the people of that country. Out of 513,326 individuals joined together in the bands of wedlock, only 170,172 husbands were capable of signing their names upon the register; 36,491 could not even read! 140,549 women declared they could not even read! 140,549 women declared they could not even read!

A Wond POR SNAKES .- The Prairie Farm

How to Get a House out or a Whise annex - Put the barrel in a secure place, ne spring of good water, on the road to the g of It in your hand and start to the grog shop; go as far as the spring, drop the money through the bung hole, take a good drink of water and return home. Repeat this operation till the barrel is full, knock out the head, and you have the price of a splendid brick building. Watches, Jewelry, &t.

ants of Saturn must be doorned to liften your trouble of heart of the sun beneath the dark s

an idea which is certainly such that our own which would be incompatible with our own physical organization or powers of endurant It is difficult to form an idea of the body this planet. It is lighter than cork or wat and is supposed by many European and so of our own astronomers to be (rings and core of the core of

of our own astronomers to be (rings and all) but a mass of vapor, "with continued variability and division of rings." A very pleasing experimens, frequently, performed by Dr. Doremus at his chemical lectures, shows how a fluid-body, revolving on its axis, may throw of rings like Saturn, which afterward break up Diamonds, Watches and Jewelry, sings like Satura, which atterward break up nto pieces and become satellites. This is effected by pouring colored oil into a jar of albeid and water, mixed in certain proportions, nd then cassing it to revolve on an inserted, wire or glass tube.

Those rings, however, instead of being only we in number, have been found to be at least twe; two obscure, neargest the planet, and three wight ones beyond them, and it is the opinion of Struve, and our own countryman, Sond, but the annular system of Satura is about to wholly absorbed by the planet itself. They ame to this conclusion by comparing the de-22 SOUTH CLARK STREET, CHICAGO. ONSTANTLY ON HAND A RICH STOCK JEWELRY SETTS. Florentine and Roman Mosaib Lava, Cameo, and all Gold.
